

# E-Aquarium Conference 2021 AGENDA

All times include Q&A

## Day One

- |      |                                      |  |
|------|--------------------------------------|--|
| 0.00 | Drs Rob Jones and Tim Miller- Morgan | Welcome and Introduction   |
| 0.10 | Shane Willis                         | Current state of the Global Ornamental Fish Industry                 |
| 0.40 | Jonathon Poh                         | Overview of Ornamental Fish International (OFI) as an organization   |
| 1.00 | Professor Culum Brown                | Pain and Emotion in Fishes: Implications for Welfare                 |
| 1.40 | Dr Rob Jones                         | Adapting the Five Domains to an Aquatic World                        |
|      |                                      |  |
| 2.10 | BREAK                                |  |
|      |                                      |  |
| 2.30 | Patrick Donston                      | Theories, Design, and Construction of a Documented Husbandry System  |
| 3.20 | Dr Mini Sekharan                     | Explorable potential of the ornamental fish market segments in India |
| 3.50 | Dr Rob Jones                         | Day One Wrap   |

## Day Two

- |      |                      |   |
|------|----------------------|---|
| 0.00 | Dr Rob Jones         | Welcome and Introduction                                  |
| 0.05 | Dr Nicola Rivers     | Conserving Species with Cryopreservation                  |
| 0.30 | Dr Rob Jones         | Syngnathid Husbandry and Medicine                         |
| 1.20 | Mitchell Brennan     | Breeding White's Seahorses for Conservation               |
|      |                      |   |
| 1.50 | BREAK                |   |
|      |                      |   |
| 2.10 | Dr Brian Joseph      | Delayed mortality syndrome - What it is, What causes it ? |
| 2.55 | Professor Roy Yanong | Emerging Diseases of Aquarium Fish and Disease Management |
| 3.40 | Panel Discussion     | Fish Diseases - Drs Brian, Roy, Tim and Rob               |
| 4.00 | Dr Rob Jones         | Day Two Wrap  |

### Day Three

|      |                      |  |
|------|----------------------|--|
| 0.00 | Dr Rob Jones         | Welcome and Introduction   |
| 0.05 | Matt Bond            | Fishing for Facts: Communicating the real story of the Ornamental Aquatic Trade        |
| 0.25 | Dr Tim Miller-Morgan | Wild caught aquarium fish - Chain of Custody   |
| 1.05 | Dr Brian Joseph      | Mitigating delayed mortality syndrome and acclimation rather than quarantine           |
| 1.50 | BREAK                |  |
| 2.10 | Beth Firchau et al   | Update on the Florida Reef Tract issue   |
| 2.50 | Charles Delbeek      | Water Quality for Closed System Live Coral Habitats                                    |
| 3.20 | Dr Paul Anderson     | From Reef to Retail: A Comprehensive Approach to Sustainable Marine Aquarium Fisheries |
| 4.00 | Dr Rob Jones         | Day Three Wrap   |

### Day Four

|      |                                     |  |
|------|-------------------------------------|--|
| 0.00 | Dr Rob Jones                        | Welcome and Introduction   |
| 0.05 | Dr Jon Daly                         | Using Cryopreservation to Secure Coral Reef Biodiversity   |
| 0.40 | Dr Brett De Poister                 | New Coral Acclimation / Photo-acclimation  |
| 0.55 | Adam Atlas                          | My Little Paly: Friendship is Toxic  |
| 1.25 | Barrett Christie                    | Overview of Parasites and Micro-predators of Corals  |
| 2.05 | BREAK                               |  |
| 2.25 | Samuel Chan                         | Invasive Species Hitchhiking with Popular Aquarium Pets: Case studies and Actions by Agencies, Industry and Hobbyist |
| 3.05 | Denice Askebrink and Katie Challen  | Mysterious polyp loss in <i>Duncanopsammia</i> corals – A learning journey   |
| 3.25 | Drs Rob Jones and Tim Miller-Morgan | General Question session / discussion and close  |
